

Teaching Staff

This is an excellent opportunity for a newer teacher to gain additional experience and add to their resume, or for a more experienced teacher to not only gain additional experience, but also have access to opportunities for professional growth in the areas of choreography and performance. It is a great job for someone who loves sharing their art form with others, and being part of a team that together help to create multiple positive experiences for our community.

Potential faculty members should possess several years of technical training in their area of expertise. In addition, they should have prior experience in teaching. Prior experience in choreography and performance is a plus. While we do accept dancers who have not taught before into our internship program, that is a different application process.

We are always open to receiving letters of inquiry from teachers of a diverse variety of technical styles, so if you are a hooping instructor or Poi dance instructor please feel free to write us.
